Manipulation Masters

PRESENTED TO:

My little sister & her friends

AN INTRODUCTION:

Five friends (Tamer), (Lamis), (Arwa), (Emad) and (Bella) discover a new game in the old library of their friend (Arwa's) grandfather, appeared through it a jinn his name is (Sarhan), who can manipulate several characters according to the game's 100 cards, but raises problems in the characters who win by cheating or neglected in their work only and is never approached by serious or diligent figures because the purpose of manipulation is basically to define the target person to the extent of shortcomings in their work, which can be repaired if the manipulated personality is later describe by integrity and honesty.

1 The five friends

(Tamer), (Lamis), (Arwa), (Emad) and (Bella) five friends living in the same neighborhood of the western city and go to the same school nearby, (Alsadaa) Preparatory school and finished the exams for the second semester of the second grade preparatory. The friends agreed on a day to spend the first days of the vacation and went to the sports club near their home and played together volleyball and some video games and PlayStation. (Tamer) said to his friends: I cannot believe that the second semester ended so quickly and now I'm free and can get up late whatever I want from tomorrow, I will not get the early morning queue and I will not do hard work, I started the summer vacation with freedom and departure, (Bella) replied: Everything you say is definitely true, but we should not waste this vacation without benefit, we must use it to do something useful or to learn something new. "What can we do on that long vacation?" (Lamis) said. We can go and take courses in German, for example, to master some of its rules and difficult words or take Photoshop courses in the computer to become more professional (Bella) replied, (Arwa) said: I have a new idea already, there is in our

house below a very large basement contains the library of old grandfather, which contains a lot of mothers of books as well as some rare and old books, what you think spend tomorrow morning in the arrangement and organization of this library? and borrow the books that we need and return them as soon as they are finished, I am sure that each one of us will find the books that fascinate him and occupy him at the time of the vacation without getting bored also you will love my grandfather library which contains many paintings and rare antiques, which will highlight its beauty once you remove the layer of dirt covered to see with your eyes how much magic and beauty of these artifacts, painted or carved by great artists. (Emad) said: What an exciting experience for us at the Library of (Arwa's) grandfather from tomorrow, we may find from books what we occupy in our spare time on this summer vacation and I like the idea of watching those old paintings and antiques, and the rest of friends settled on the idea of (Arwa) to meet at their friend's house (Arwa) at 8 am to go down to their downstairs basement and explore that old library.

2 Jinn of manipulation

On the agreed day on the morning at 8 am, all the friends arrived at (Arwa's) house, she welcomed them warmly after asking her father to bring her and her friends to the basement of their house to arrange her old grandfather's library and borrowed some books from there. Already they went to the library, which contained many huge books covered with a thick layer of dust. They began to remove the dirt from the books to show the titles of those ancient books, which included books in history, philosophy, poetry and the origin of the species, in one of the pillars of the library, there were a number of paintings and works of art rare, (Emad) and (Bella) removed dirt to highlight the beauty and colors of multiple wonderful, while (Imad) gazed in those paintings and marvel at the beauty and confirms that he never saw paintings in such a Workmanship and beauty, as for Bella, she discovered something else. She found an old cardboard that applied a number of folds to itself inside and when she flattened it she found some of the drawings that show three-dimensional as well as some strange inscriptions containing a number of magical symbols or spells, next to these paintings were a number

of cards, which numbered up to 100 different cards and each of these cards contains one picture for one person, for example: a card containing a picture of the king and another picture of the prince and a picture of a knight and another picture of a teacher or farmer and a picture of a construction worker and another Doctor or engineer and there was a prominent writing under the picture on each card seems to be a specific code or magic mantra, there was next to this large painting and 100 card a paper explaining the way to play this magical game, it was very similar to the game Ludo, which is played by children in the current era and was based on the throwing of 3 of the dice three consecutive random throws followed by appearing of Jinn if the total throws = 10, you are asked to choose a random card of the hundred cards then identify the name of a specific character and read the mantra below the image to begin after this the Jinn in the manipulation with the target person and raise problems to him. (Bella) was very surprised and puzzled about this game and asked her friends to come and see what was next to the collection of rare paintings and asked (Arwa) if she knew about this game, but (Arwa) said no. The five friends started to look at each other as if everyone was asking the rest if they were willing to venture or risk starting playing this game. (Tamer) told his friends: What do you think of this game? (Lamis) replied: "It is unbelievable or unreasonable. (Tamer) replied: How can we know if it is reasonable or not? If not try, (Bella) was enthusiastic about the idea, but (Arwa) had some fears

and friends finally settled down to start the game whatever to happen. (Tamer) grabbed the first stone and threw it on the ground, the number (4) appeared and then (Billa) grabbed the second stone and threw it on the ground. The number (5) appeared then (Lamis) grabbed the last stone and threw it on the ground appeared number (3) appeared, but the total was (12) and repeated throwing dice several times in a row until they finally got 3 consecutive random throws their total (10) and the three throws were: (3), (3), (4). And here appeared to them a Jinn looks like a rogue and troublesome, he welcomed the friends and knew them himself, saying: I'm the Jinn of manipulation and claimed the Jinn (Sarhan), I did not get out of here a long time ago, I will become a friend of you throughout the game you can choose a random character to manipulate with it so that the character is not repeated twice. The friends were afraid at first but they sensed that the genie was funny and appeared in his movements like little children. (Emad) said to him: What should we do? the Jinn replied: you have to re-distribute the cards randomly and choose a random card as well to determine the name of the character that has the same picture on the card and read the spell below it to start to manipulate with this character and joke with it and actually (Emad) redistributed the cards and choose a random card to show the image of the referee of football, the Jinn asked him: "With which referee do you want to manipulate?" (Emad) thought a bit. "The referee (Omar al-Rashidi)" he

said, he made a lot of mistakes on the pitch and caused the loss to the team that I encourage, I would like to manipulate with this referee and harass him severely harassing, the Jinn replied: Be the first to manipulate with this failed referee as you asked (Emad) and to share with him heavy pranks because it caused the loss of your team.

3 With the referee (Omar Al-Rashidi)

While the five friends gathered to watch one of the football matches between two giants of the North African teams, the referee (Omar Al-Rashidi) ruled this important match but had a date with the Jinn (Sarhan), who was vowing him in order to play and make fun of him, and during the draw between the leaders of the teams, one of them chose one of the two sides on which the picture appears and the other chose the other side, which shows the numbers and writing and whenever the referee threw the coin to the top, the Jinn (Sarhan) picked it up from the air do not come down on the ground and repeated this scene many times until all those puzzled in the disappearance of the coin and finally settled with the leaders of the two teams to draw lots through two cards, one to choose the ball and the other to choose the stadium. The game began and the game was difficult and tension appeared on both sides and began to cultivate toughness between the players of the two teams and one of the yellow team made foul with one of the red team and was worth a warning on this deliberate obstruction, The referee (Omar Rashidi) issued a yellow card for the player wearing the shirt number 8, but after that, Jinn

imitated the player's number 5 voice from the Red team and cursed the referee with profanity words, the referee issued a red card for the player and the player marveled at this card without making any mistakes and objected to the referee but the referee advised him to leave the stadium without speaking again and the red team went angry and the coach of the red team entered on the pitch and clashed with the referee, he issued a red card is also to the coach, the security intervention took place to stop the engagement between the parties and returned each technical team to its place but the red team was very tense. The game continued for a quarter of an hour after the player the number 9 of the red team claimed blocked him inside the penalty area of the yellow team, the referee was puzzled by the order of this ball and asked his assistant, who pointed out that the player No. 9 represents in this ball and claims to obstruct and that the ball does not deserve a penalty, but the red team asked to resort to video technology and the referee referred to the technique of video, but the audience was watching on the large stadium screen something other than the referee was watching. The representation of the player is clear but the Jinn is changing in the images seen by the referee in front of his screen without others, and his eyes are filled with fabricated images, (Omar al-Rashidi) looks at his screen many times, the representative of the player is very clear but does not see it and finally decided to count a penalty for the Red team amid the surprise of fans of the two teams and here the manager of the yellow team

objected to this game and clashed with the referee who took out a red card like the coach of the other team, and here the Jinn shows many smiling Emoji on the big screen in the stadium and the public think first that the director of the match does so. The television commentator said: It seems that the director of the match wants to tell us that the referee counts the cards in reverse; he counts the card against the injured player and not against the offender player and the first half ended after counting time instead of lost and the second half began and it was an organized attack of the yellow team ended with a goal due to a clear offside of player No. 10 and the assistant referee raised his flag but the players of the yellow team wanted to resort to video technique and the Jinn did this time as he did the previous time, he made the line that determines the location of the last player of the Red team and the position this player on the pitch little in front to show the player No. 10 of the yellow team is not offside in the screen to make the referee (Omar Rashidi) to calculate the goal is correct and here clashed took place between the red team players ,the referee and the yellow team players and began to strike verbal words and a riot on the pitch happened and some of the fans of the two teams entered to the pitch and the security entered also to remove the referee and the players of the two teams so as not to be hurt by the rush of the masses. The referee was unable to complete the match and was eventually forced to cancel it, but after the match's correspondent wrote a bad report in the

referee (Omar Al-Rashidi), he pointed out that the referee had made serious mistakes in the match and failed to keep the match going and ejected the technical directors of both teams, (Emad) was watching the game via television, but he burst out laughing after watching the events and concluded from the smiling Emoji that the Jinn (Sarhan) is behind all this.

4 The broadcaster with solved questions

The friends gathered at (Arwa's) house to do another experiment of this game they discovered by accident and friends agreed to let (Lamis) choose the new character among the 100 cards to play with it and after getting three throws of their total 10, the Jinn (Sarhan) appeared again and welcomed his new friends. He asked (Emad) about the harassment that he caused for the referee. He said that he laughed for a long time after seeing that last game and asked the friends to pick a random card from among the remaining 100 cards after excluding the card of the referee (Lamis) choosed a random card and a television broadcaster appeared. The Jinn asked her: "Which TV announcers do you want to manipulate?" (Lamis) responded with the announcer of the contest program (Golden Choice) Mr. (Ali Jafar). He asked her to read the mascot at the bottom of the picture. She read it and the Jinn flew in order to manipulate Mr. (Ali Jafar). Mr. (Ali Jafar) gave very easy questions to Viewers and asks them to call if they know the correct answer the first was question: How long is the fetus stay in the uterus of his mother to humans? Is they (8 months or 9 months or 10 months) immediately the Jinn

contacted with the announcer and imitate the voice of the lady and said to him: 10 months Mr. (Ali Jafar) asked her: Are you sure, Madam? The Jinn replied: Yes, sure. I had my first son after 10 months of pregnancy. He said to her: An incorrect answer. We have two answers (8 months or 9 months). The Jinn called again and said to him: 8 months, the announcer said: Wrong answer and here the Jinn contacted him for the third time. But this time a man said to him: I have two wives, Mr. (Ali), the first called little time ago to tell you that they are 10 months and the second to tell you that they are 8 months so that there is only the right answer to tell us Mr. (Ali), you are definitely kidding with people on television. Mr. (Ali Jafar) had the embarrassment and told the viewers that we apologize for this boycott. It seems that one of them wanted to joke with us. Let's start with the second question: How many seasons are there? Are they (3 or 4 or 5)? The Jinn called him again and said to him: I am the friend of the man who called you a little while ago, and I will tell you that I have two wives, the first will tell you that the answer 3 seasons and the other will tell you that the answer is 5 seasons, but I will tell you that they are 4 seasons certainly. Let's start with images' questions. He put three pictures of one dog and another of a wolf and lion. He asked viewers: Which animal is the most loyal animal. Suddenly, the Jinn (Sarhan) came with a black-and-white spotted dog to the studio, who took the bark in a loud voice, hitting Mr. (Ali Jafar) with fear who was trying to keep himself calm in front of the

The audience first thought it was a funny spectators. paragraph in the program but the director of the program had to cut the transponder. Mr. (Ali Jafar) came out of the camera room wondering what caused the mess, but the photography team told him they did not know where the dogs came from. But he asked: How do you not know where they came from and the chaos was on the whole place, and the viewers were caught by a wave of laughter that stopped while a screen appears written on it: **"This is a non-objective comic program that attracts viewers through those easy questions that you are trying to answer in search of a quick win, but the sum of those contacts are huge profits a lot of money is distributed between the director of the channel, the telecommunications company and Mr. (Ali Jafar), who had to solve these questions to save viewers time, but I did this on his behalf so that you would not be distracted by more and more."** Signing: giant of the Supreme Kingdom of the Jinn and put on the screen a small red demon picture of the Manchester United logo holding his trios stick.

5 Professor (Kassim El-Rifai)

It is now on the role of (Bella) to choose a new personality to be manipulated after the embarrassment of the announcer of television with Easy questions Mr. (Ali Jafar) in front of viewers, such a kind of trivial programs that do not deserve to follow or even watch have become a popular commodity for many who take advantage of the ignorance of a large number of viewers in the Arab world and their limited education and the simplicity of their thinking in deceiving and tempting such questions making it easy to contact them to begin to put a large number of them in a sequential so that your call becomes long as possible and thus increase the bill of your telecom company and thus the profits of these programs and channels providing them, but the Jinn (Sarhan) has written an explicit message to the viewers to prevent such manipulation of the public after that and gave them the image of the demon Manchester United as a kind of humor. Now it is time to manipulate one of the cheaters, the university professor (Kassim El-Rifai) because Billa, after she chose one of the 100 cards after excluding the referee and the announcer cards, it showed her a picture of a teacher and asked the Jinn: Can I choose a university

professor? He said to her: Of course you can. She said to him: I know a university professor called (Kassim El-Rifai) has caused the failure of my cousin (Michael) many times during his years in medical school, it is said that this professor is responsible for controlling the result and replace the seating numbers between the answer sheets to put the seating number of one of Sons, relatives or acquaintances on the answer sheet with final grades and oppress the student is considered to be the best student by placing the number of his sitting on the booklet of the answer received a small score, Jinn (Sarhan) said to her: Just read the spell at the bottom of the image and the Jinn (Sarhan) take control and necessary work. In fact, the Jinn found wholesale pleadings in the control committees and many infringements on the rights of the high students. He decided to make the final result a farce in the grades of the subjects in the final lists. He increased the grades of outstanding students, so that one of them obtained a score of 105% in the first article, 110% in the second article and put him 130%, 140% in the third and fourth article to be the grades in the final statements 280 of 250 and 360 of 300 and others. The students were superior to the higher end grades, and the students who failed were graded with negative marks or graded negative marks in two subjects and scores above the maximum in the other two subjects, so that the student failed to tighten the hair of his head from the intensity of stunned how to get half the number of materials in the negative and the other half

higher than the final grade, not only the Jinn sufficed of all this Professor (Kassim El-Rifai) had two sons in the third and fourth year in order, the Jinn gave them zero in all materials until his sons got zero in the four materials in the final lists and the other two impressed of the result and to eliminate it in the final attempt to modify or repair this result, the Jinn has replaced the seating numbers of all the answer sheets so there is not left a single booklet with the name of the original owner, and the emergence of such results is certainly loud scandal and while referring to the pamphlets answer can no longer reform after all this chaos and here Dean of the Faculty of Medicine referred Committee of the control headed by Mr. (Kassim El-Rifai) all to investigate and after the pressure on the monitors of the result many of them admitted on the professor (Kassim) that he deceived the result every year, especially when there is one of his relatives or acquaintances within the students and after facing of Professor (Kassim) with witnesses, he admitted that he was deceiving the result every year and issued disciplinary provisions to be separated from the university and prevent him from the final head of any committees of the control or head of these committees of one of them who has relatives of the fourth degree in one of the years of study when the president of the university knew about these rules, he decided to make cheating or forgery more difficult. He issued a number of more stringent decisions that prevent cheating altogether. He decided:

- 1 The work of the control of exchange between universities, for example, the Faculty of Physical Education take over and supervise the control of the Faculty of Medicine while the College of Medicine oversees the Faculty of Tourism and the Faculty of Tourism undertake the Faculty of F-tongues.
- 2 The university professor who is proven to be involved in cheating or forgery in the result of the end of the academic year shall be permanently dismissed.
- 3 Students are prohibited from taking the mobile phone with them to the examination committees and those who are found to be involved in cheating operations are separated for two consecutive years and are prohibited from entering the exam.
- 4 The oral examination committee shall be composed of two university professors and the oral committee shall not be assigned to one university professor until each student receives the average of the total two degrees obtained by each professor.

And other controls that govern the process of performance of examinations, which was developed by the President of the University with the advice of a specialized committee for that matter, which suggested that the exam of the end of the academic year to be carried out by more than one professor of one article and not carried out by the head of the department alone, and when (Bella) knew these things, she was very optimistic,

and she was sure that she would not be oppressed in calculating the result when she reached university, as was the case with her cousin (Michael).

6 The bribee Minister and lost assets

Now the role is on (Arwa) to choose a new character among the 100 cards after the exclusion of the previous figures and while the distribution of cards at random manner, a picture of a minister appeared and the Jinn said to her: with which ministers do you want to manipulate (Arwa)? she said to him with the Minister of Investment, Mr. (Omran Rajab Omran), that most of the projects of his ministry are carried out through bribery and legal facilities in exchange for payment and money under the table, the Jinn (Sarhan) said to her: read the mantra below the picture to go to the office of Mr. (Omran) Let's examine the projects in his office, Mr. (Omran) has allocated thousands of acres of desert to the businessman (Suleiman El-Dakhli) to build a new city called "City of Dreams", but that was after the payment of large amounts to the Minister to sell government land at a low price and they have completed the first phase and the second one and the workers continue to work in the third phase. The first phase has been inhabited by the population and the Jinn (Sarhan) has been extinguishing and lighting the poles of lighting in the neighborhoods of the city and making disturbing sounds in extreme places

and color dyes artificial lakes in red, He hid the children's toys from the houses of the city. He also changed the borders drawn by the workers in the third stage and the banners in the city. The more they finished building the foundations and the main pillars of the buildings, the more he dropped them, a large number of residents complained of what was happening in the city as well as the workers of the unexplained demolition of what they had built and Mr. (Soliman) to requested the minister to explain what was happening in these specific lands, but the minister replied that it is just uninhabited government land that he would allocate to others if he did not allocate it to him and he does not know what is happening in particular. It is common that this city is inhabited by ghosts and the third phase was not completed due to the reluctance of the workers to work in it, the second phase didn't inhabited as well. The Jinn (Sarhan) caused a tension between the Minister (Omran) and Mr. (Suleiman El-Dakhli). A large contracting company called MTM also got a tender to beautify some of the public fields, but this tender was made only after paying a big bribe to Mr. (Omran). This company used poor materials to spoil everything Beautify within a year or two, after that, the company receives the tender again from the government funds, depending on the corrupt minister. It initiated the renovation work in several fields, including: the field of nobles, the field of workers and the field of warriors, the decoration of these fields depends on the establishment of a large fountain in the

middle of the field surrounded by a circle of green flowers and plants and a wall of steel surrounded by ceramics and the Jinn (Sarhan) drops them this ceramic whenever they finish the composition and make those fountains work on their own and replace the red flowers with a group of cacti and fork plants, The workers' impatience ran out with the repeated fall of these ceramics and they were afraid of those fountains that work and light on their own and asked the company they work but the company changed the team more than once and informed the Minister that told them that he is not responsible for these events and that they have to hand over the work completely, after this project hit the loss, MTM decided to abandon this project and informed Minister (Omran) of this decision. Here the relationship between the Minister and this company was strained, because they put him in a difficult position in front of the Prime Minister because of the failure of many projects responsible for its completion. The Jinn caused a lot of problems for this minister and numerous complaints against him were submitted to the investigation, which revealed many abuses and irregularities in government papers that reveal the corruption of this minister, as well as the lack of debt that he sold to those who pay more. (Arwa) then felt proud in front of her friends as she was a political activist who had directly caused discovering of a corruption case.

7 Traffic officer

Only (Tamer) of the five friends left to choose a new character from among the cards of manipulation and after obtaining three straight throws, the total of them 10, the Jinn appeared and said to (Tamer): There is no one left (Tamer) to choose a new character to manipulate with it except you. (Tamer) distributed the cards randomly and ruled out the previous characters, of course, cannot be manipulated the same personality twice and chose one of the cards appeared a military image, the Jinn said to him: Do you know a specific military to manipulate with him? (Tamer) said to him: a traffic policeman standing in the main street leading to our school, he received money from the vehicles in return for not recording traffic violations against them. The Jinn said to him: Read the mascot at the bottom of the picture and let us go to the mantle of this military a bit and already the Jinn (Sarhan) went and found that every taxi passing by the same way pay money to this traffic policeman in exchange for ripping off registered violations against it. The first car was a taxi. The driver took out a ten-pound paper and gave it to the traffic policeman, so he let it pass in peace, but the Jinn (Sarhan) after the car was launched 10

kilometers away from the policeman parking place of the original traffic, returned this car to the starting point to pass the policeman parking place again, here the policeman asked the driver: Have not you been through here for a while? The driver said to him: yes, I passed you a little while ago and gave you a ten-pound paper. The policeman said to him, "What came to you again? "I do not know," he said to him. "I went on ahead and found myself returning to the same point the policeman said to him: Did not return from the other direction? The driver said to him: No, it happened as I told you, he said to him: Go, driver, and do not take more Tramadol tablets, which went your mind away from the right, the driver went off thinking that the tablets Tramadol is what caused it to him. The policeman continued to watch the road, and then a microbus came racing at a crazy speed. The policeman stood by without paying him. Here the Jinn gave the traffic policeman a visual illusion. He showed him more speeding microbus cars without stopping. He recorded in fake offenses for numbers and cars that do not already exist and showed him a group of warplanes that are performing an aerial review in the sky, it seems that the Jinn knew who was coming on the road, things were already confused by the policeman between the cars madly at the bottom and planes that rattle in the sky from the top, the policeman lost control of what was going on around him, but the surprise that was waiting for him was that the governor's motorcade would pass from the same road soon. The Jinn stopped all the traffic

lights, replacing the green signals with red and red ones with green ones, causing chaos on the road that ended with a traffic jam on the way, the cars were jammed next to each other as the salmon boxes were packed into a deep carton on their way to the city store and shortly after the policeman opened his eyes to find the chaos of an incident on the ground more difficult than the one made by the Jinn in fiction. The governor came out of his luxury car and got off as well as his bodyguards of the security men and went to the policeman and asked him what was happening and caused all this chaos but he did not find what to say to him, he was overwhelmed in the world of dreams, the governor called the head of the traffic operations and asked him to turn the policeman to investigate and send a team to solve the problem of traffic congestion and said to him: I have seen rockets on the road without an officer who is monitoring these mad speeds, he replied that they are monitoring many of the main roads by the radar to record and calculate the speeds of passing vehicles and to issue immediate violations to those who exceed the speed limit allowed on the road signs along the way. The governor said, "The situation will continue to be so bad. If all of your policemen actions' like this I met today, you should also improve your choice of these roads and large neighborhoods and to set rewards for those who are keen in his work and his eyes in the middle of his head and account for the losers such as this one, who caused the

disruption of the conference heading that I was going to attend this morning.

8 Money for judgments' mitigation

After the role of (Tamer), each of the five friends has already played with a certain character. They said to each other, let's try the three throws. We may have more chances to manipulate again. Indeed, (Arwa) and (Lamis) threw the first and second shots and (Emad) threw the third one, the throws were respectively (6, 3, 1). The Jinn (Sarhan) appeared to them and said to them: It seems that you are not yet tired of the game of manipulation, I see that there are still more characters that you want to manipulate with it and actually (Emad) distributed the remaining 95 cards and chose a card randomly and a picture of Judge appeared. The Jinn said to him: Do you want to manipulate with a particular judge? He said to him: I heard from my father that there is a judge called (Abdul Samad al-Mulla), who is being paid to ease the sentences, he once told us that there is a thug and sentenced to death as a result of forced robbery, during which he clashed with the victim and killed him his name was (Hasan al-Aw), and he also had a dangerous registered brother named (Ibrahim al-Sow). He went with their friend and their third partner, (Mustafa Makanis) to the house of the judge (Abdul Samad al-Mulla) and

offered him any money he requested in return for commuting the death sentence against (Hassan al-Aw) this, he asked them two million pounds to commute the death sentence to 20 years and they already managed through successive robberies of the measure of this amount and go to the judge to judge in the final session on the (Hassan al-Aw) only 20 years. He also told us that there was a drug dealer who had been caught with 200,000 kilos of heroin. He had been sentenced to life imprisonment for 25 years, a hard labor, and some of his men were able to communicate with this judge and paid 30 million pounds for the judge (Abdul Samad al-Mulla) to reduce the sentence to 15 years of hard work after the lawyer of the accused person used some legal gaps in agreement with the judge to reduce the ruling and other cases and disputes, which was ruled for those who can silence his conscience and buy his debt after hearing this with friends the Jinn became angered and vowed this judge and promised (Emad) to avenge this judge revenge appropriate and there was a thorny issue in the circle of this judge, where 500 terrorist were arrested in riots elements, several were sentenced to death And others with hard labor between 10, 15 and 20 years and the release of those who did not prove against them conviction, but the Jinn (Sarhan) scattered the papers of this case and make a unified sentence against the 500 individuals to death and the final verdict was made and called on the official to call the names of defendants to hear the final verdict. The judge (Abdul Samad) issued

his sentences. He said the defendants 1-20 that the court sentenced them to death by hanging and then called on the defendants 20-50 and sentenced the court sentenced them to death by hanging and here the courtroom erupted as they were expected to receive another sentence below a death sentence. The judge (Abdel Samad) felt some confusion in the papers in front of him, but he continued saying that the court sentenced the defendants 50-100 to death by hanging but he felt that there was something wrong but the lawyer present with the defendants and the oldest among the masses of lawyers came from his place and shouted In the face of the judge, saying: If they were in the dock now 100 hens, you won't sentence them all to death, he screamed in the courtroom that this insane judge would kill 500 chickens, and the court heard the shouting on the one hand and the accused on the one hand and their relatives on the other, until the judge finally had to cancel the hearing and complete the sentences in another session, but the Jinn was not satisfied with this. He was present in a dispute between two brothers over an ancient legacy of a piece of land about 100 acres. Each of them tries to put his hand and grab it, but the Jinn replaced it with another case. When the judge (Abdul Samad) issued a final verdict, one of the two brothers was sentenced to death by hanging and the other brother was acquitted. The whole audience was surprised to hear this verdict. Everyone laughed hysterically. One of the lawyers, who was present with the first brother, stopped to ask the judge what was

happening, who apologized and told them that he seemed to have replaced the papers with another case, The Jinn continued to do a lot of similar events until it was common that the judge (Abdel Samad al-Mulla) had Alzheimer's disease and began to show symptoms of dementia until the judge in the end to submit his resignation embarrassed by the unfortunate events that occur with him.

9 The committee is not disciplined

Friends agreed to continue the game of manipulation in the same vein as it is now the turn on the (Lamis) to tamper with a new character this time after the end of the (Emad's) role and already after getting three throws total 10, the Genie (Sarhan) appeared again. "If you are going to play in the same order, it's now on (Lamis) to pick a new random card," he told friends, and indeed (Lamis) told him: that the role this time on her and after the cards were distributed randomly, she choosed one of them, a picture of the student appeared, The Genie said to her: Did you appoint a specific student to manipulate with him? She replied: she does not remember a particular student to manipulate with him but she knows the name of a high school with unregulated committees where observers in these committees allow the sons of the military ranks and senior personalities to cheat in order to get high results in high school. The Genie asked her: What is the name of this high school? She said to him: School "Nation Youth", he said to her: I will go to this school immediately to inspect what is happening after reading the talisman at the bottom of the picture, The Genie has already gone to this school to find the

committees are not really disciplined, a son of one of them, who was using a mobile phone, was found to leak the exam and receive the answer from a teacher outside the school. One of the students also wrote a summary of a number of notes on her right thigh to take from them during the exam, also, one of them has summarized most of the curriculum on small sheets so that he can cheat on it during the exam. The trickiest was to use a palm tree by number of farmers next to the window of a student to download the question sheet from the committee and return it again after the answer to what was on it and here the Genie (Sarhan) made a number of skirmishes funky, he has occupied the internal speakers of the mobile of the first student so that can hear the voice of the announcer all within the Committee, as well as lifting the robe from that student to show everything she wrote on her thigh whenever she tried to hide or remove and stapled the small sheets of the third student in the answer sheet to be caught dressed in a cheat record and the paper on the palm tree has installed it next to the net also to catch the student who threw it to his family below that they were all solved and returned to him again. As the mobile voice rose, there was a huge revolution in that committee. Everyone was listening to the professor who was solving the exam from outside and shouting and screaming for more. There was a serious disturbance in that committee and a noise that was sufficient to evoke the role observer and the chair of the committees, so that the observers of this committee found themselves in a position that they

were not envied. The head of the committees grabbed the mobile phone student and asked him what he was allowed to take the exam with his mobile phone. He replied that the committee monitors knew this and denounced the student's action, which wrote some answers on her right thigh before entering the exam, and called the police and released a cheating report against them as well as the student who the Genie pinned him the small shreds in his booklet answer and the student who was given the answer of the exam through the Palm and against a large number of students in this committee. The family of the fourth and final student demonstrated in front of the school and accused the head of the committees that he had missed their son's future because he prevented him from cheating through the palm and a number of farmers of his relatives gathered and were almost to kill him if he left the committees in the police protection, the observers of these committees also left the school arrested and informed the ministry of the matter, which sent a team of conscripts to guard the school to complete the rest of the examination days for the rest of the students who have not been released against them cheating records. Newspapers reported the scandal, known as the "Cheating's Youth School" scandal instead of the name of the School of "Nation Youth" the original name of this school.

10 He sells you anything

Following the previous vein, the role is now on (Bella) to choose a new character to manipulate with, it was the Genie waiting and said to (Bella) after the emergence of a picture of seller, do you know a certain salesman want to manipulate him. She said to him: There are large shops in the main street of the city called shops (Samir El-Mohammadi) by a large number of different electrical appliances: automatic washing machines, refrigerators, air conditioners, televisions, kitchen appliances, mobile phones and others, but this seller claims to have everything and often sold fake devices as original and fake goods and that is what caused the quick richness he is now. He said to her: Just read the spell at the bottom of the picture so we can go and play with it a bit. The five friends took themselves to the shops of (Samir El-Mohammedi). He was in the main shop and (Bella) asked about an air conditioning brand that did not already exist.

She said to (Mr. Samir): Is there a (Baidu) air conditioner? (Mr. Samir) replied immediately that he had (Baidu) air conditioners, he explained the advantages of the air conditioning he has and how he saves electricity and reduces the budget of the electricity bill, but he

brought her an air conditioner of the type of (Samsung), she said to him: it wants a (Baidu), not a type of (Samsung), he said to her: Air conditioning (Samsung) A replica of the air conditioner (Baidu) that she wants, here, the genie (Sarhan) removed the air conditioning logo (Samsung) and put the word "Baidu" in the new logo, (Bella) said to Mr. (Samir) that she had glimpsed (Baidu) air conditioners on the shelves on the western side of the shop and Mr. (Samir) went with the five friends to the western side of the shop to see the air conditioner of the new type, which was unheard of before and was surprised when he found (Baidu) air conditioners and he did not know who came this to this place, but he continued talking with (Bella) that he forgot that he has (Baidu) air conditioners and the (Baidu) brand is an independent sub-brand of (Samsung). She asked him if he had (Baidu) television and he told her he had other devices similar to her. But (Bella) told him she had already seen (Baidu) in the shop and pointed to the place after the Genie (Sarhan) change the logo of these TVs as other for air conditioners before. Mr. (Samir) remained in this position for a long time with (Bella) and her friends whenever they asked him about gas cookers, refrigerators, mobile phones, etc., so that these branches had a full brand name called (Baidu). Some of the people bought these devices with the new mark, but the Genie (Sarhan) has disabled all of them and they returned these devices to the shops of Mr. (Samir El-Mohammedi) for repair in the warranty period and Mr. (Samir) contacted

to his importers to ask them to ensure the company (Baidu), but they assured him that there was no trademark of that name, Mr. (Samir) did not know who brought these devices to his shops. He was really similar to the equipment he had, but with the logo and the commercial name of Baidu. Here the genie called him again telling him that he had fake mobile phones and rechargers of type (Baidu) if he wants a quantity of them, Mr. (Samir) asked him about the warranty period, the genie told him that these devices were not guaranteed, Mr. (Samir) replied that these devices had caused him heavy losses because he had to compensate consumers for defective devices he had already sold under the name (Baidu), but told him that he would buy counterfeit chargers and some other accessories of the type (Baidu) and the genie (Sarhan) returned to friends to tell them that Mr. (Samir) will not buy devices (Baidu), but will continue to cheat consumers in some chargers and other devices and he is worthy of what he and (Bella) had done of manipulation.

11 Journalist of yellow newspapers

Now the role is on (Arwa) to play the second time a new personality according to the role of the five friends and a press image appeared to (Arwa) this time and the Genie (Sarhan) asked her for the name of a particular journalist to manipulate him, she replied that there is a famous journalist usually written in the yellow newspapers called (Ismail Abdul Qadir), who specializes in writing about the scandals of celebrities and prominent or known community figures, the Genie (Sarhan) said to her :read the spell at the bottom of the picture, after reading this, the Genie went to investigate this journalist and found that a famous artist called (Mimi Zuhair) had been paid to publish something untrue about her rival, (Suhair Hosni), until her star shone and her opponent disappeared. The journalist has prepared a number of news to publish: The other artist has a relationship with a famous star and they do not want to recognize their customary marriage contract and that they have sons in secret. Also, one of the directors refused to work with her because he disagreed with this artist and he preferred (Mimi Zuhair) on her, before the publication of the newspaper, The Genie (Sarhan) changed these striking

headlines before the printing process. It was published that the first artist, (Mimi Zuhair), is the one who has a relationship with this artist and that the director who disagreed with this artist has stated that the artist (Suhair Hosni) is the one who She has a real talent, a special presence and a charisma that exceeds her rival (Mimi Zuhair) and does not put her on the same footing with her, and here the actress (Mimi Zuhair) became angry after the publication of this news because she guessed that the artist (Suheir Hosni) paid more to this journalist to reverse the news published and contacted this journalist and began to insult him, and threatened him that he would not allow him to work in the field of journalism again, but he did not know how this happened and tried to apologize to her, but to no avail and The Genie repeated this work again, there were two candidates from the People's Assembly, one Christian religion and the other Muslim, in order to win this election, the Muslim candidate paid the journalist (Ismail Abdel Qader) a sum of money to write in the newspaper that he works for that the Christian candidate is related to one of the artists and that his constituents should not give their votes to this fugitive but to him and promised people that he would build a new mosque bigger than that in their village and slay them seven calves and distribute their meat to the poor, but the Genie (Sarhan) has reversed the news so published that the Muslim candidate has a relationship with this famous artist and that the Christian candidate will build for the people of

his village a new mosque and slay a number of calves and distribute meat to the poor. People confirmed the published news and went to the Christian candidate to make sure he was sincere in his promises and would build a mosque and distribute meat to the poor. The Christian candidate found himself obligated to implement the published news in order to win the support of his constituents, he built the mosque and slaughtered the calves, and that was enough to win a big winning. The Muslim candidate contacted the journalist at the height of his anger and threatened him and his newspaper that he would sue for the false news that it published, and vowed to prevent him from the press work is the first thing that will do if he won the electoral cycle of the next People's Assembly, and because of these news, enmities gathered and many discounts for this journalist who paid him first, and the Genie (Sarhan) then reversed the news to be published and friends of yesterday are becoming the enemies of tomorrow to him and anyone who tried to hurt them have succeeded purely by chance to their opponents because of these strange tricks performed by the Genie (Sarhan).

12 The militant (Mohammad Ghanem)

The five friends gave (Tamer) the chance to choose a new personality to manipulate with, and a picture of bearded Sheikh appeared, the Genie (Sarhan) asked him if there was inside his head a certain person wants to manipulate with, he told him that he knows a friend of his father called Sheikh (Mohammad Ghanem), he is a businessman, but he is a hardliner by nature. Most of his actions are the opposite of everything he says. He takes hardening a jacket to cover his lies and hypocrisy. He said to him: "Just read the mascot at the bottom of the picture." The Genie went to the company of Mr.

(Mohamed Ghanem) called (Al-Baraka) Company for financial transactions and found that the employees of his company are taught how it is not allowed to appoint non-Muslims or women who do not wear the hijab, shortly afterwards, a Muslim woman entered the company's, she was beauty and very exaggerating in her adornment and did not wear the hijab. This was shown to her by the Genie (Sarhan) the announcement of (Al-Baraka) Company, which shows how (Al-Baraka) has the best financial transactions, so this lady went to exchange the dollars she had received by her husband from abroad and

entered the company (Al-Baraka) and asked to meet her manager and immediately entered his office who welcomed very warmly as she was very beautiful and said to her: Blessed the Creator in what he created, the Almighty for his beauty and beauty in the manufacture and almost the mind of Mr. (Mohamed Ghanem) to fly by the severity of her beauty, and took to courting her and lengthen his conversation with her and here the genie picked him the first image under the name of "blessed the Creator in what was created" in the company of this lady. In another situation, Mr. (Mohamed Ghanem) went to the bank to apply for a loan of 500 million pounds. The branch manager of this bank was Mr. (Wadie Malak), who welcomed Mr. (Mohamed Ghanem) and tried to answer all his demands. Mr. (Mohamed Ghanem) sat with the director of this branch explaining to him what the loan will be used for and what the guarantees of his projects then they shake hands at the end of the session after he took the juice and this is where the genie picked up the second picture under the name "If you do not allow them to work in your company, Why do you borrow from them?". This was the second situation. In a third situation, Mr. (Mohamed Ghanem) traveled to a port in the country to arrange a smuggled clothing deal from Customs. He concluded this deal with an importer and bought a large quantity of clothing from this importer. And Mr. (Ghanem) or importer did not pay one piaster for the state of these clothes and here the Genie (Sarhan) took the third picture of him under the name "If

all your money halal, why do you profit from the haram too?" After taking these three pictures, Al-Genie (Sarhan) put them on the company's website on Facebook and the three titles appeared under each picture of (Mr. Mohammed Ghanem). He was surprised by the pictures on his company website and gathered his employees to ask them who put these pictures. He confirmed that his company was infiltrated from the inside and that there was a spy among his employees working for the competition companies, but the employees of his company were just as surprised by these images and marveled at who put them, but that did not stop them from laughing or mocking Mr. (Mohamed Ghanem) after entering his office, He met with the company's network administrator, who assured him that he did so from outside his company and that the Facebook site is easy to penetrate and take the account of his owner, Mr. (Mohamed Ghanem) said to him: What is your benefit if the site of his company is easy to penetrate? The company's network administrator told him: "he will fix the matter and remove these images and make sure if that their company's website has already been hacked but the images have been widely shared. Like Mr. Ghanem, he has many of his enemies and those who are waiting for such an opportunity to make fun of him and of his worship and hardening, who does not agree at all with what he says or recites the verses and teachings memorized by heart, and these images also reached (Tamer), who ridiculed his father's friend as he

was seen the most boring among his father's friends who are other moderates, that keep the teachings of their religion and do not harden or exaggerate it.

13 Man of Scout

After (Tamer) completed his role, each of the friends manipulated two different personalities, but they were eager for more manipulation. The game was definitely amusing to them and they caused a problem with each target person in the hope of reforming or modifying their behavior, and they threw the dice three times to continue playing in order to get three throws of the total 10 and the genie appeared to them again and knew that the role on (Emad) this time because they are always playing in the same order, and (Emad) distributed the remaining 90 cards randomly and chose one of them which appeared a picture of a man of scout on it. The Genie asked him if he knew a certain scout man to manipulate him. He told him that they had a scout official in the church called (Hani Magdi). He was also a hardliner by nature. He was too strict in giving orders and always looked forward to the roles of the chair, the Genie said to him: Read the mascot at the bottom of the picture and I will go to annoy him a little bit and already the Genie went to Mr. (Hani Magdi) that was responsible for the engagement transcripts in the church. (Mina) was about to be married to (Christina) and (Michael) to be married to (Justina)

and (Bishoy) to (Marina). All the names were scribbled in the wedding records and each fiancée was named next to another, when (Mina) went to celebrate his wedding on (Christina), he told the priest that his wedding date was next Sunday. The priest said to him: Congratulations to you Mina, I wish you a happy life with our daughter (Justina). (Mina) replied: you mean your daughter (Christina) because (Justina) is the bride of my friend (Michael). The priest said to him, "Is not a bride of (Michael) our daughter (Marina)? (Mina) said to him: No, my father (Marina) is a bride of (Bishoy). The priest said to him: "Come and see for yourself, the record of the engagement of the blessed son (Mina) to his bride (Jostina) and the blessed son (Michael) to his bride (Marina) and the blessed son (Bishoy) to his bride (Christina) "This is a mess, and none of us is left except to take the bride of the other" said (Mina). The priest called Mr. (Hani Magdi), to ask him why it was confusion, but Mr. (Hani Magdi) insisted that he had never made any mistake in any of the statements before. He did not know the secret of this confusion in the transcripts, this requires that every bride and groom come to write their records again so that there are no errors in the marriage vouchers and determine the original amount of the golden crafts and the priest asked jokingly from each groom to put a distinctive mark for his bride so as not to mistake it again, in another incident, the family of the deceased (Fahim Ramzi) called on (Hani Magdi) to ask him to arrange with the

priests the date of the funeral prayer for the body of the deceased and to write down the wording of the announcement that will be placed on the walls of the church, The genie changed in the form of the declaration to show that the deceased is the wife of (Fahim Ramzi) and the family of the deceased entered the church and put the body inside it, the priest began to give a sermon about the humility of the wife of (Fahim Ramzi) and the good memory she left to her children in the church and the role model for other young women, but before the priest performed the funeral prayer, he discovered that the lady (Hayah) was crying and grieving for her late husband in the church. He was very embarrassed to offer condolences to the deceased's family because the sermon he gave was about the departure of the deceased's wife not about him. The audience was astonished at the sermon and felt that the priest was giving them some words of condolence, but he did not really know who had actually left. He gave his homily based on the declaration written by Mr. (Hani Magdi) and changed by the genie to make this man confused. The priest asked to interview (Hani Magdi) and told him that he had caused him embarrassment for the second time, the first with the engaged youngsters and the second with the family of the deceased and asked him to leave the service of marriage and funeral prayer for other servants and also to abandon the presidency of the Scout Service, because it works without concentration and causes disturbances within the church and here (Emad) felt a great joy because he could

not stand the scouting service with this man, and wishes his departure to serve with other senior servants who are calm and friendly and do not deal with others arrogant or with rudeness as does Mr. (Hani Magdi).

14 Image of the King

It is now up to (Lamis) to play a new character as is common among the five friends, but there was a surprise that would have changed the course of the game. An image of the king appeared on the card that she randomly selected after the cards were distributed and (Lamis) asked the Genie (Sarhan): Can we manipulate the President of the Republic? He said to her: You can manipulate anyone, but using this card the game will be over and you have to select between the use of this card or continue to play and she asked her friends and consulted all of them, but agreed to use the last card on which the image of the king and Genie (Sarhan) told her: just read the amulet at the bottom of the picture and the Genie fly to play the final character in our story. It was a crucial football match between our national team and a neighboring country to qualify for the last leg of the continent at the World Cup, but our fans and the fans of this team has rioted in the host country of this game and there were between the fans of our team a number of artists and prominent figures in the community and who went to support our national team, but after these events, these artists appeared on television, telling untrue events

about the acts of harassment and bullying carried out by the masses of the other state and the barbarity and brutality of the masses of this team, it was for political reasons to preserve the cultural image of the country as well as its leaders, but the genie (Sarhan) went to live in the home of one of these artists, who was lying and fabricate novels that did not actually occur, and he light up the lights of his house and turn them off and made voices in the middle of the night to frighten him and spoke to him through the mirror and says to him: It is the voice of his conscience, which will not rest or comfort him if he did not come out to the public on television and tell them the real events, which took place with the team and continued on this case for a period of time until the artist eventually had to go out on the screen and say: that all his previous words were only fabricated on the orders of senior leaders to preserve the cultural image of the country, and that the issuing of these orders were made by figures of weight in the government, and the Genie (Sarhan) repeated the previous work with a number of artists that a large number of them admit on the President of the Republic as well as his assistants who issued these orders to artists and prominent figures in order to come out on the screen and lie in front of the public and this caused a great political impasse between the two countries as the President of the Football Federation of the other state refuse to shake hands with the President of the Football Federation of the State of (Lamis) and her friends, and the public knew the truth through foreign

news agencies as well as by celebrity recognition after the pressure of the genie (Sarhan) on them and this caused great embarrassment to the president of the country, which eventually had to come out to the public and recognize the truth and shows that the masses of the state of (Lamis) and her friends are actually started the riots because of the obsession of some fans with the ball, and that the acts of bullying were caused by a number of outlaws who carry a number of white weapons and other small arms and they are already started harassing the masses of the other state, it was only way for the masses of the other State to oppose the attack like them, this was because of their sadness at the departure of our national team from the qualifiers. Indeed, the team of the other country reached the World Cup finals and the people of the state of (Lamis) and its friends showed an uncivilized appearance and showed through their head how to use lies to cover certain political situations, and cheating for some politicians to win and get rid of their opponents and owners of the other cuff, but the truth must appear someday no matter how they tried to hide or block it, and that the liar always takes the form of the lame rider in a large marathon of running while the sincere walk confident of himself in the steady steps and the genie (Sarhan) returned to the friends who thanked him for the period spent with him during the manipulation game, he also told them that he was very happy to accompany them during the previous period and that he was waiting for a wonderful group of friends to play with him again

in the future and assured them that it is their companionship that will last, and honesty and openness are the foundation of any relationship either lying and representation are the cause of failure of any hypocrite as they all knew through the game of manipulation.

15 The liar is barefoot

Before the genie left, he asked friends what they had already learned through the manipulation game. (Tamer) replied that the liar, like a barefoot walker, is vulnerable to injury or bleeding at any time because he cannot surrender the consequences of the road which hinders his lies or hypocrisy. (Lamis) said: The manipulation has contributed to the detection of many of the things of cheating is not visible on the surface and the explosion of defects would remain for the rest of her life secret, (Arwa) said: "The problems caused by the genie are likely to expose some cheaters, which may make them feel the harm they cause to others. They take everything for themselves and prevent the good of others. As for (Emad), he said: These problems may also contribute to altering their behavior and correcting their mistakes so that they do not fall into it again. But (Bella) said: The world is unfair because cheaters succeed without others and liars alone do their interests even if at the expense of other people as for the genie (Sarhan), he replied to (Bella) and said to her: These cheaters we have caused trouble to them in our game to wake up, and if we did not cause this to them, it will be caused by others and if not

caused by others it will be caused by themselves, the cheater often succeeds at first, but believe me he must be revealed in the end because you cannot cheat all the people all the time. The Secretariat is long-lasting and its owners often earn the respect of people as well as respect of themselves, before the genie left friends, he knew that they were on the threshold of the new school year and asked them if they had prepared well for it. (Arwa) said that the summer vacation had passed quickly with your company, O Genie (Sarhan), and it was the best summer vacation. We spent it together at all. As for the new academic year, I would ask my friends in the same class at school to mention a condition that had happened and someone had cheated at first but soon turned out to be false and hypocritical in order to prove (to Bella) that the world is full of synonyms of the game of manipulation and that the mask of falsehood often falls in the end and the friends agreed that hard working and honesty alone will enable them to succeed and progress in the future, but that does not prevent them from being careful and cautious because the bad guys likewise have many tricks of manipulation but in reverse.

The End

A short revised story

Five friends Tamer, Lamis, Arwa, Emad and Bella discover a new game in the old library of their friend Arwa's grandfather, appeared through it a jinn his name is Sarhan, who can manipulate several characters according to the game's 100 cards, but raises problems in the characters who win by cheating or neglected in their work only and is never approached by serious or diligent figures because the purpose of manipulation is basically to define the target person to the extent of shortcomings in their work, which can be repaired if the manipulated personality is later describe by integrity and honesty.
